Floor Cleaner and Salt Remover

CONCENTRATE

- A general purpose floor cleaner designed to dissolve the ice melter film tracked into buildings.
- Reduces slip hazards.
- Concentrate is designed for use through a bucket/wringer or an autoscrubber.
- Ready-to-use is designed for use with a microfibre mop.

Product	Dilution	Code	Size
Ready-to-Use	RTU	40358	946ml
Concentrate	1:20	40359	3.78L

A liquid floor cleaner that dissolves the white film deposits left at entranceways due to tracking of ice melter. It helps keep high polished finishes looking good because it prevents the attack from salt and ice melter. Parkside Pro Floor Cleaner & Salt Neutralizer also reduces slip hazards associated with ice melter water retention and dried powder on the floor. Suitable for use on vinyl or ceramic tiles, terrazzo, or synthetic matting. Also can be used as a general purpose cleaner.

Directions for use:

CONCENTRATE: Dust mop or sweep to remove dirt & ice melter pellets. Dilute Floor Cleaner & Salt Neutralizer at 30-90 mL per 4 Litres (1-3 US oz. per US gallon) depending on soil conditions. Dip mop into solution and wring out thoroughly. Mop floor in usual fashion, re-soaking mop and wringing regularly. If solution in bucket becomes dirty, discard and make up fresh solution. Rinsing is not required after use. Repeat if required. **FOR AUTOMATIC SCRUBBERS:** Dilute 30-60 mL per 4 Litres (1-2 US oz. per US gallon) of concentrate per gallon of water.

READY-TO-USE: Remove excess debris from floor by vacuuming or sweeping. Tighten the trigger sprayer, turn nozzle on trigger to desired position. Spray product onto floor and spread with a clean microfibre mop. For microfibre mopping kits with on-board reservoir, remove trigger sprayer and pour product directly into reservoir. Dispense product onto floor while mopping from side to side. Although no rinsing is required, large amounts of dissolved salt may require a second cleaning. For best results, replace soiled microfibre cloth as often as possible. To prevent slips and falls keep people off of floor for 10-15 minutes. Do not use on unsealed or unfinished floors, waxed or oiled floors, or marble. Ready to use, do not dilute. Phosphate free.

Handling and Cautions:

Caution: Eye irritant. May irritate eyes. Do not get in eyes. First aid treatment: Contains surfactants. If swallowed, call a Poison Control Centre or get medical attention immediately. Do not induce vomiting. If in eyes, rinse with water for at least 15 minutes. If in contact with skin, flush with water. Keep out of reach of children.
